LG | cosmos™ 2

Eat. Sleep. Text, text, text.

When you text as much as I do, no old-school keypad is going to keep up. But with a real 4-line QWERTY keyboard, I'm blasting out texts faster than Mom can remind me to do my homework. And with mobile web, a camera, a music player and easy social network updates too? All I have to say is, TTYL boredom!

Ready. Set. Thumbs! - I can get the word out at light-speed by texting my friends on the legit 4-line QWERTY keyboard.

Always On - I always have my friends with me—and they always have me—with mobile web and easy social network updates!

Better than Talking - Sure, I can *talk* to people, and hear voice messages too—but why? Text and pic messaging are what it's all about.

Life's a Snap - A day with no pictures? That's like a day without air! Good thing I'll always have Cosmos 2 camera with me at all times.

Mobile Soundtrack - It's crazy how some people will go through the day without listening to their favorite jams, but I never have to—I've got my MP3's right here!
